Telephone: 044 494 0014

Date: 10th of February 2020.

Ref: **MARIA ALEKSANDRA JALASKOSKI** aged 13

Dear Mrs. Soile Jääskeläinen,

My name is in Bucharest Romania. I represent a group of parents from Romania who are very concerned regarding the recent institutionalization of the child MARIA ALEKSANDRA JALASKOSKI aged 13, who is both a citizen of Romania as well as of Finland, as such a citizen of the European Union, in your institution which we regard as a very grave mistake.

According to the information posted on the site of your institution, the services provided are:

„Individualized care. Attendo Wihtori is a substitute service unit opened in Pihlajanniemi, Savonlinna, in March 2018. Attendo Wihtori offers demanding institutional care for adolescents aged 12-17 in need of a rehabilitation placement or crisis period. Attendo Wihtor's areas of expertise include child and adolescent psychiatric competence and neuropsychiatric / disability work. Our staff consists of sociologists, nurses and community nurses.

The staff has additional training in psychiatric nursing, family work and neuropsychiatric rehabilitation. We have a pair of self-directed tutors and regular tutors receive guidance. Our educational work is based on hearing, understanding and interacting with the young person. Our goal is to help young people understand their policies, strengthen their resources, and work together to find new empowering solutions.”

The object of your activities is quite noble and we congratulate for it.

However, we know very well MARIA ALEKSANDRA JALASKOSKI, thus, we can prove that she does not have any condition that demands the services of your institution.

As far as many of us, that is hundreds of people who came to know her over the time, have

determined, she is a very normal, balanced and stable child, as such there she is in no need of the services provided by your unit, that is she must not be interned in your unit at all. On the contrary, the wrongful internment may be quite damaging to her overall health and equilibrium for which you may be held responsible.

The internment MARIA ALEKSANDRA JALASKOSKI is a very big mistake that requires immediate action primarily expected from you as well as from all other competent authorities. We want to add our determination and capabilities to stop the continuation of such mistaken internment.

As such, we kindly and firmly ask you the following:

FIRST: Should the condition of MARIA ALEKSANDRA JALASKOSKI be such that it qualifies her internment in your institution, you must provide immediately proof of such in form of a medical scientific report which has reached to such conclusion and recommendation issued by a competent, independent, officially recognized, scientific medical authority.

SECOND: Should you not be able to present such medical scientific report, you must immediately require the social services to immediately return MARIA ALEKSANDRA JALASKOSKI to her mother MIHAELA -CAMELIA JALASKOSKI (SMICALĂ) to which the courts of Finland turned over the custody of the child since 2013 by way of a irrevocable judicial decision. We trust that the institutions of the State of Finland, including your institution and that of the Social Services as well, apply the irrevocable judicial decisions of the Finnish Courts to the letter, such is the good reputation of the State of Finland which I believe you all citizens of Finland hold in high esteem.
